

FOR K-12 SCHOOL DISTRICTS

Cybersecurity built for how districts actually run.

Districts hold rich data with lean IT teams — and attackers know it. We deliver the controls insurers and auditors expect, at fixed published prices, with reporting your board can actually read. Founder-led and Madison-based: you talk to the engineer doing the work, not an account queue.

ALIGNED TO CIS Controls · NIST CSF · Microsoft 365 & Entra ID · HIPAA · FTC Safeguards · PCI DSS

FCC CYBERSECURITY PILOT? THE FOUR COVERED CATEGORIES ARE WHAT WE DO.

Funding decision letters are arriving through 2026. **Denied line items carry a 30-day appeal window**, and post-commitment substitutions are possible (FCC Form 488) — we help districts scope appeals, substitutions, and implementation. Not a participant? The same four categories are still the right roadmap.

Endpoint protection	Managed EDR on staff and student devices, deployed and watched by our SOC.
Identity protection & authentication	MFA rollout and Microsoft 365 hardening — the controls attackers test first.
Monitoring, detection & response	24/7 managed monitoring with humans who call you when it matters.
Advanced / next-gen firewalls	Assessment-driven firewall and network hardening, with your vendor or ours.

WHY DISTRICTS CALL US

- ✓ Cyber-insurance applications get denied without MFA, EDR, and policy — we get you to "yes" with evidence.
- ✓ Security runs off the side of one person's desk — we take the always-on parts off their plate.
- ✓ Board-ready, plain-English reporting — no 80-page PDF of scanner output.

HOW WE WORK

STEP 1 Assess

150+ controls against CIS & NIST, report in ~10 days.

STEP 2 Fix

Ranked remediation — we do it or guide your team.

STEP 3 Protect

24/7 managed monitoring, per-user pricing.

PUBLISHED PRICING — NO QUOTE GAMES

K-12 Cybersecurity Assessment from \$3,500

Small-district tier; full-district engagement \$5,500–7,500. Board-ready summary + grant-fundable roadmap.

Crusader Shield — managed protection

from \$35 / user / mo

EDR + 24/7 SOC, email security, phishing training, MFA management.

Managed EDR / MDR

from \$8 / endpoint / mo

Detection & response, deployed and watched around the clock.

Full price list for every service at crusadersec.com — assessments, M365 hardening, MFA rollout, incident-response readiness, and more.

Free 30-minute consult — before your next board meeting.

Where your district stands, what your insurer expects, and the smallest next step. No pressure, no obligation. Scan the code, visit crusadersec.com/k12, or email info@crusadersec.com.
